

# KEEP OUR PARKS HEALTHY

## Invasive Weed Mitigation

July 10th at Foxglenn Park (back field)

July 24th at Gemini Dr. & Cedar Ave.

9AM to 11AM

**The Dalmatian Toadflax – Native to western Asia and southeastern Europe, is a non-native invasive weed in the Western United States. These weeds are harmful to our native Flagstaff environment and oftentimes push out healthy plants from its surrounding areas.**

### How can I help?

**Join us with your gloves and hand tools to help us pull these weeds! Be sure to bring plenty of water and wear appropriate clothing. We hope to see you there!**

**For more information please call 928-213-2161**

**or visit [flagstaff.az.gov/recreation](http://flagstaff.az.gov/recreation)**
