

Project Number: WW 3284

Planning Period: FY '15-'16

Description: Bonita Sewer Replacement: Project includes replacement of approximately 750 feet of sewer, 1100 feet of water main and full street reconstruction of Bonito from Santé Fe Avenue to Elm Street.

Justification: Part of the overall annual sewer replacement program. The existing vitrified clay pipe mains in Bonito Street were installed in 1919 are over 95 years old and experiencing high maintenance costs. Old sewer pipes can create maintenance problems for customers resulting from build-up of roots, broken joints, and corroded pipes. As part of a long-range program COF has a target of completing one mile pipeline rehabilitation work each year.

Conceptual Cost:	Project Number:	WW 3284
	Construction Cost:	\$1,440,000
	Project Cost:	\$1,440,000

Facility Design:	Project Number:	WW 3284
	Type:	Collection System
	Quantity:	750 LF - Sewer
