

CITY COUNCIL REPORT
PUBLIC

DATE: July 29, 2016, *Revised September 12, 2016*

TO: Mayor, Vice-Mayor and City Council

FROM: Stephanie Smith, Assistant to the City Manager

CC: Josh Copley, Barbara Goodrich, Shane Dille and Leadership Team

SUBJECT: Tax and Fee Approved 2011 – 2016, Revised

The following is a City Council Report on the taxes and fees increased by the City of Flagstaff since 2011 as well as the overall revenue collected.

Key Considerations

The City's general sales tax and primary property tax which support the maintenance and operation budget for many general City services. Unlike these general revenue sources, the City also assesses fees and rates for particular services. In addition, the City has dedicated sales tax increases for particular purposes such as transportation enhancements, transit, street safety improvements, etc. City secondary property taxes fund general obligation bond issuances.

State and local governments use fees to help fund services. Fees can not only reduce the need for additional revenue sources, but they can also promote public safety and service efficiency. Some fees are charged to the direct recipients of those that receive benefits from such services. Depending on the service, the City's fees sometimes do not cover 100% of the cost to provide the service to various users. Examples may include services for public safety, children and youth as well as the ability of residents or businesses to pay.

Revenue Collection

Staff was also asked to provide the amount of additional revenue generated as a result of past fee increases. There are two significant reasons why this specific information is not available in its entirety. First, revenue collected from a fee increase is entirely dependent on two factors: the fee amount and utilization. For example, revenue collected from recreation fees tied to Aquaplex admissions is dependent on the admission fee itself as well as the number of individuals using the Aquaplex facility. Secondly, the fees adopted by Council are often quite specific. For example, when Council adopted a 7% increase in "Recreation Fees" there were almost 500 individual fee structures amended. There are over 60 different fees associated with membership and admissions at the Aquaplex, depending on duration, age, veteran status, etc. The revenue collected from those individual fees is not tracked rather overall revenue from all

memberships is tracked. Therefore, staff is not able to report on the revenue collected *as a result the fee increase*. The exception is when an entirely new tax or fee was implemented, such as the Use Tax or Road Repair and Street Safety dedicated sales tax. While the specific impact of individual fee increases is unknown in many cases, enclosed in this report is a summary of revenues collected since 2011. * Note that all revenues for 2016 are unaudited.

Expanded Summary of Fees Adopted 2011 – 2016

Included in this report is a complete listing of all fees adopted since 2011 by the Flagstaff City Council. The following is a summary of fee adoptions.

Cemetery Fees

In FY 2016, the City adopted changes to cemetery fees in order to generate additional revenue for the General Fund. **Cemetery fees saw a 10% across the board increase.**

Court Fees

In FY 2011, the City adopted Court Fees (Jail Reimbursement Fee, Court Improvement Fee, Probation Client Fee, Warrant Fee, Suspension Fee, Default Fee, Court Disposition Reporting Fee, Time Payment Fee) to reimburse and/or cover the costs of the associated services. Additional Court Fees were established the same year (City Court Improvement Fund, City Court Collection Fund, City Court Facility Fund) to be used exclusively to provide funds for the development of a new Court facility as well as fund other operational improvements. The fee amounts vary dependent on the service. **The average impact was less than \$3.00 increase to the overall fees paid by defendants at the Flagstaff Municipal Court.**

Environmental Management Fee

In FY 2013, the City increased the Environmental Management Fee to \$4 per month from \$2 per month. The fee increase supported ongoing budgets for environmental management and sustainability programming.

Liquor License Fees

In FY 2015, the City increased its **Liquor License application fee from a 70% cost recovery to 100% cost recovery** based on the cost established in the 2009 user fee study. At the same time, the City renewed fees associated with off-track betting which generated additional revenue for the General Fund.

Passenger Facility Charge

In May 2015 the **Council adopted the \$4.50 passenger facility charge at the airport.** This charge is capped at \$4.50 per flight and are used to fund FAA-approved projects that enhance safety, security, or capacity at the airport.

Planning and Engineering Fees

In FY 2014, the City increased certain planning and engineering fees to balance the budget. Fee increases helped fund an additional Planning Development Manager to meet current work load demands as well as provide for full cost recover for materials testing services.

Planning Fees were increased from 50% cost recovery to 60% cost recovery based on the 2009 User Fee Study and Engineering Fees were implemented at 2.15% of Public Improvement Construction Cost for 100% cost recovery for materials testing services.

Public Safety Development Fee

In FY 2011, the City revised the Police and Fire portions of the Public Safety Development Fee to be in compliance with State legislation on development fees. **The administrative change reduced the residential public safety development fee from \$705 to \$675 (4%) and the non-residential square foot fee by 6%.** In FY 2014, the City completed its final step in adopting new fees in compliance with state requirements. Public Safety fees for the Fire Department will fund a proportionate share of Fire vehicles and communications equipment. Fees to the Police Department will fund a proportionate share of Police facilities, vehicles and communications equipment. Both fees will pay for a portion of the Infrastructure Improvement Plan and Development Fee study. **Fee structure adopted in FY 2014 reduced single family (about 20%) and multi-family residential fees (about 5%) as well as amended the development fee for nonresidential development.**

Recreation Fees

In FY 2014, the Recreation fees were also raised to increase cost recovery of services and to help balance the budget. **The Recreation fees were approved to increase 21% over a three-year period.** The first 7% increase was approved in FY 2014. In FY 2015, Council adopted the second phase of the Recreation fee increases (7%) as approved in FY 2014 to balance the General Fund.

Solid Waste Fees

In FY 2014, Council reinstated a \$2.50 per ton fee at the Landfill to help fund facility improvements for the City's solid waste operations. In FY 2016, the City revised the solid waste rate structure to account for volume and density efficiencies. Reduction in fees were seen at services of higher frequency and volume. **For example, service collection for four bins saw about a 12% reduction in rates and service collection for eight bins saw about a 25% reduction.**

Utilities Fees

In FY 2011, the City adopted rate increases to water, sewer and stormwater and service fees. The fees were increased in order to adequately fund operations, maintenance and debt repayment and replacement projects. The service fee increases were updated to better represent actual costs to provide services. **In summary, in FY 2011, the City adopted an annual increase for water and sewer for 5 years, ranging from 3% - 30%.** In FY 2017,

the City adopted rate increases to water, sewer and stormwater user and service fees. The fees were increased to adequately fund operations, maintenance, debt repayment and replacement projects contained in ten-year capital improvement program. **In summary, in FY 2016, the City adopted a 4.4% annual increase for water, a 7% increase for sewer, and a 6% increase for stormwater — over the next 5 years.**

Approved Tax Initiatives 2011 – 2016

In addition to fee increases, staff was asked to identify all increases (or new) taxes approved since 2011. With the exception of the Use Tax, all of the following tax initiatives were voter-approved.

Year	Name of Tax	Type of Tax	Tax Amount	Revenue Collected
2012	Flagstaff Watershed Protection Project	Secondary Property Tax	Extension of existing rate	Approximately \$29 million* in secondary property taxes has been collected since FY 2012 which is inclusive of many initiatives, including FWPP and Core Services Maintenance Facility
2012	Core Services Maintenance Facility	Secondary Property Tax	Extension of existing rate	
2014	Road Repair Street Safety	Sales Tax	0.33%	\$5.9 million* was collected in FY 2016
2015	Use Tax	Use Tax		\$818,000 since FY 2015*

Recommendation/Conclusion

This report is for information only.
