FLAGSTAFF, AZ. CITY STATE ZIP CODE 86002

This form is to be completed by a land surveyor, engineer, or architect who is authorized to certify elevation information. Community officials who are authorized by local law or ordinance to provide floodplain management information may also complete this form.

SECTION I FLOOD INSURANCE RATE MAP INFORMATION

Provide the following from the proper FIRM and accompanying insurance application:

| COMMUNITY NO. | PANEL NO. | SUFFIX | DATE OF FIRM | FIRM ZONE | BASE FLOOD ELEV. (In A0 Zone, use depth) | COMMUNITY ESTIMATED BASE FLOOD ELEVATION ESTABLISHED FOR ZONE A OR ZONE V, IF AVAILABLE |
|---------------|-------------|----------|----------------|------------|---|---|
| <u>040020</u> | <u>0002</u> | <u>B</u> | <u>1/19/83</u> | <u>A15</u> | <u>6765</u> | |

Elevation reference mark used appears on FIRM Yes No

SECTION II FLOODPROOFING CERTIFICATION
(Certification by a Registered Professional Engineer or Architect)

I certify to the best of my knowledge, information, and belief, that the building is designed so that the building is watertight, with walls substantially impermeable to the passage of water and structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy that would be caused by the flood depths, pressures velocities, impact and uplift forces associated with the base flood.

In the event of flooding, will this degree of floodproofing be achieved with human intervention? Yes No

(Human intervention means that water will enter the building when floods up to the base flood level occur unless measures are taken prior to the flood to prevent entry of water, e.g., bolting metal shields over doors and windows.)

Will the building be occupied as a residence? Yes No

If the answer to both questions is Yes, the floodproofing cannot be credited for rating purposes and the actual reference level floor must be completed and certified instead. Complete both the elevation and floodproofing certificates.

FIRM ZONES A, AE, A1-A30, VE, V1-V30, AO and AH: Certified Floodproofed Elevation is 6766.0 feet, (NGVD).

SECTION III CERTIFICATION

I certify that the information on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.
