- FLOODWAY FRINGE
- 100-Year Flood Boundary
- 500-Year Flood Boundary
- Approximate 100-Year Flood Boundary
- Cross Section Line

Elevation Reference Mark
River Mile

RM7 x
M1.5

NOTES TO USER

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Emergency Management Agency.

This map was prepared to facilitate flood plain management activities only; it may not show all special flood hazard areas in the community or all planimetric features outside of the flood plain. Refer to the latest official Flood Insurance Rate Map for any additional areas of special flood hazard.

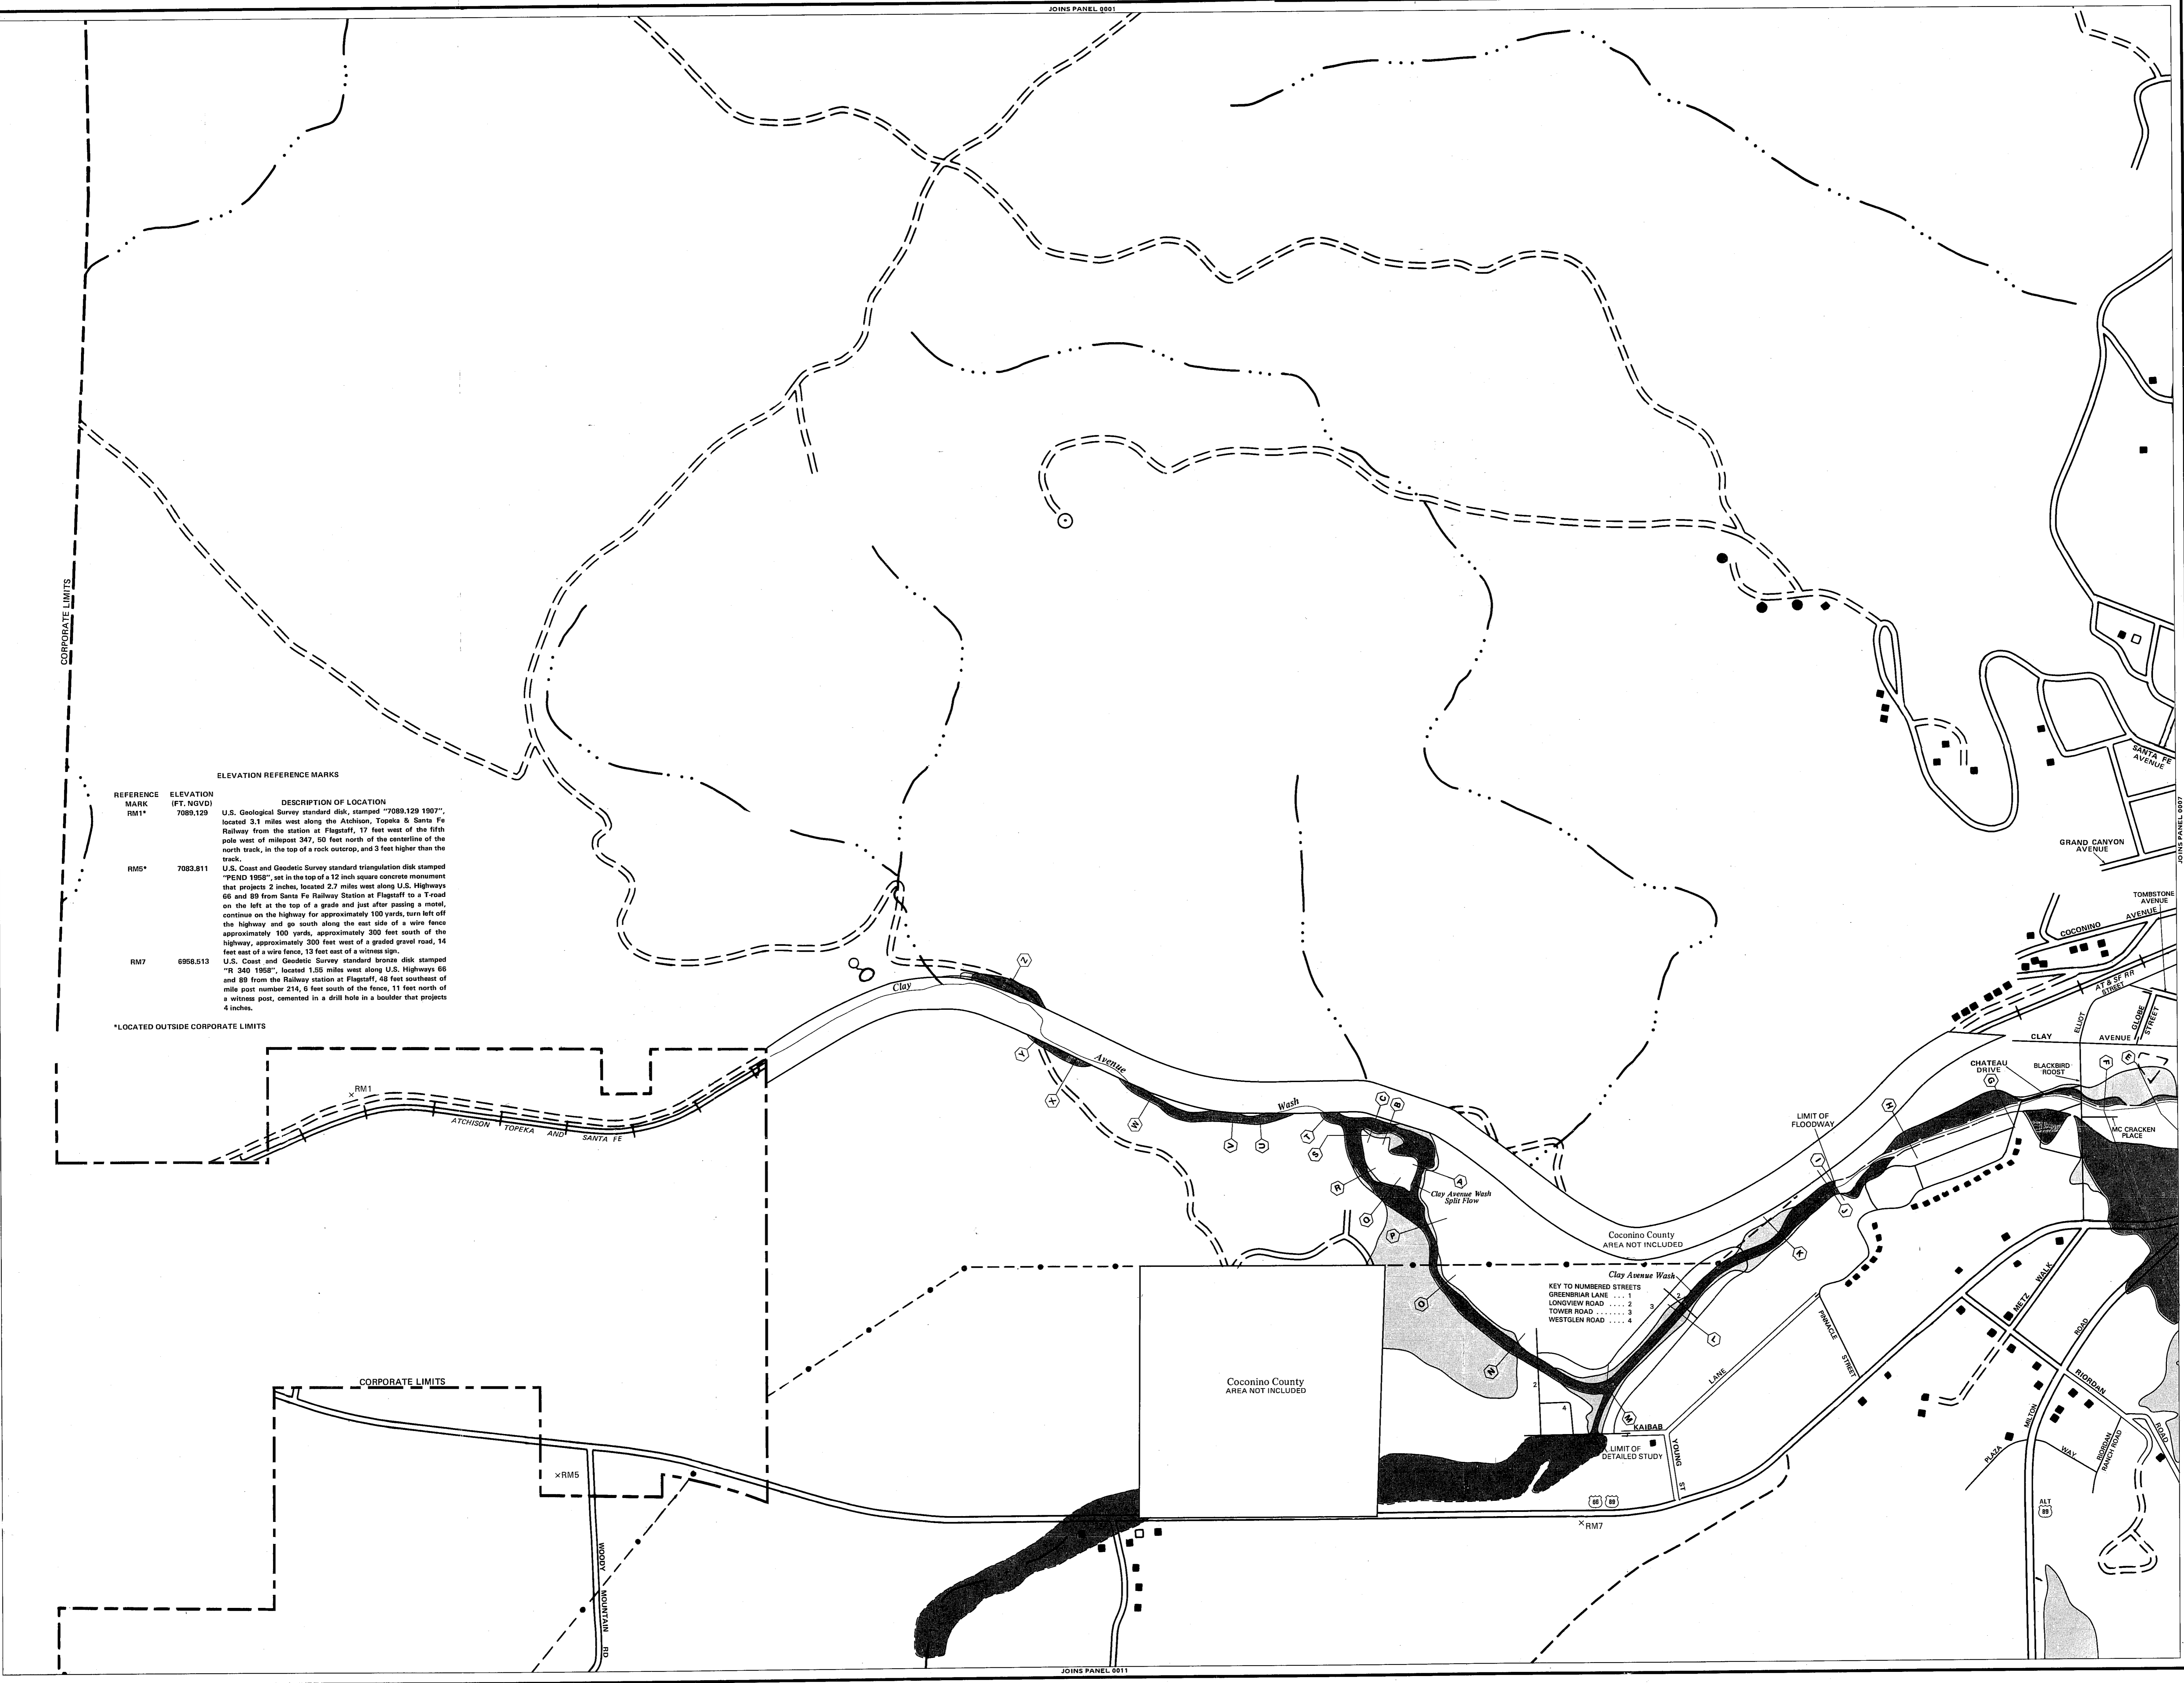

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data Table where floodway width is shown at 1/20 inch.

For adjoining map panels, see separately printed Index To Map Panel.

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. MVD)	DESCRIPTION OF LOCATION
RM1*	7089.129	U.S. Geological Survey standard disk, stamped "7089.129 1907", located 3.1 miles west along the Ashlison, Topoka & Santa Fe Railway from the station at Flagstaff, 17 feet west of the fifth pole west of milepost 507, 50 feet north of the centerline of the north track, in the top of a rock outcrop, and 3 feet higher than the track.
RM5*	7083.811	U.S. Coast and Geodetic Survey standard triangulation disk stamped "7083.811", set in the top of a 12 inch square concrete monument that projects 2 inches, located 2.7 miles west along U.S. Highways 66 and 89 from Santa Fe Railway Station at Flagstaff to a T-road on the left at the top of a grade and just after passing a road, continue on the highway for approximately 100 yards, turn left off the highway and go south along the east side of a wire fence, approximately 100 yards, approximately 300 feet south of the highway, approximately 300 feet west of a graded gravel road, 14 feet east of a wire fence, 12 feet east of a witness sign.
RM7	6958.513	U.S. Coast and Geodetic Survey standard bronze disk stamped "70 340 1959", located 1.25 miles west along U.S. Highways 66 and 89 from the Railway station at Flagstaff, 48 feet southeast of mile post number 214, 6 feet south of the fence, 11 feet north of a witness post, cemented in a ditch hole in a boulder that projects 4 inches.
