

Current Residential Collection Fees:

1. **Automated Collection:** Seventeen dollars seventy-three cents (\$17.73)/month for one (1) time a week collection of the solid waste and recycling containers, once every five (4) week bulk waste collection, weekly white goods collection, access to the landfill (except construction and demolition waste), and access to the Hazardous Products Center. Billing will apply to each residential property continuously.
2. **Additional Automated Containers:** Cost of the container to the City plus ten dollar (\$10.00) service fee with an additional monthly service fee equaling fifty percent (50%) of the normal monthly fee.
3. **Replacing Automated Containers:** Actual cost of container to the City plus ten dollar (\$10.00) service fee.
4. **Special Collection Service:** Special bulky waste collection will be provided upon request to residential and business customers for a fee equal to the cost for equipment, manpower, and landfill disposal, at a one-half (1/2) hour minimum rate.
5. **Residential collection fees** apply whether the residence is occupied or unoccupied. The monthly service charge is based on the fixed cost of operating and maintaining the residential collection system so that the system is available to provide residential collection to the parcel when residential collection service is activated. Unoccupied parcels will continue to pay monthly service charges because residential collection service is available and may be activated and used by the property owner at any time
6. **Glass Recycling** Three dollars fifty-five cents (\$3.55)/month for once per month pick up.
