In an effort to be more transparent, we have started presenting arrest and victimization rates year to date. These statistics are currently being impacted by trends related to the Covid -19 pandemic. Flagstaff has seen less visitation and tourism, and a reduction in our college student population. This has positively manifested itself in reduced criminality and arrests in some areas. Our community is one of only a few that has provided additional housing options for homeless populations. This has drawn more homeless individuals to Flagstaff. Unfortunately, we continue to see Native American members of our homeless population over-represented in both arrest and victimization data. Many of these arrests are on those who are not City residents, and many of these arrests are of repeat offenders.
